Area of Interests

- Environmental Modelling, Climate Change, Urban Ecology
- Drone Imagery Processing, GIS & Remote Sensing, Deep Learning
- Coastal Adaptation, Machine Learning

Education

Bachelor of Urban and Regional Planning **Timeframe:** 2019-2024
Khulna University of Engineering & Technology (KUET), Khulna, Bangladesh
CGPA: 3.58/4.00 (Final two years: 3.73/4.00)

Thesis Topic

Renewable Energy Resources in Bangladesh: Assessing the Most Efficient Renewable Energy Resources Using AHP
Evaluated and ranked renewable energy resources in Bangladesh using the Analytic Hierarchy Process (AHP) by integrating expert and public survey data. The study serves as a baseline for decisionmakers, enabling informed and data-driven decision-making.

Conference Presentations

Ahmed, S., & **Shuvo, C. G.** (2025, November). ***Dynamics of Surface Urban Heat Island between Contrasting Coastal Climates: Learnings from V20 Country's Megacities, Chittagong and Karachi for Climate Adaptation Using an Automated Cloud Computational Platform***. (Oral Presentation). International Workshop on Adaptation Technologies for Climate Change, Thailand.

Ongoing Research Projects

- **Land-Use Change and Ecosystem Service Value in Khagrachhari, Chittagong Hill Tracts (2000–2025)** (Manuscript in Preparation)

Estimating how ecosystem service values changed over 25 years, using an equivalent factor method adjusted to local conditions, and tracing how value flows between neighboring ecosystems.

- **Machine Learning-Based Assessment and Mitigation Scenario Modelling of UHI in Coastal Cities of Bangladesh** (Data Analysis Phase).

Building Random Forest and SVM models to predict surface temperature in dense coastal neighborhoods and test how different cooling measures would change it.

- **Groundwater Potential Mapping of Bangladesh with Random Forest and Artificial Neural Networks** (Manuscript Ready)

Mapping groundwater potential across the country from 19 topographic, climatic, geological and socio-economic factors, and comparing how well the two models perform.

Academic Projects

- **Ecosystem Service and Disservice Components' Impact** on Communities in the City of Khulna
- **Mapping Carbon Footprint**: A Comparative Analysis of Carbon Emission from Different Land Uses of Khulna
- **Site Suitability Analysis** for the Development of Economic Zones in Bangladesh
- **Suitability Analysis of Satellite Towns** within the KDA Planning Area, Khulna & Site Analysis of Selected Site
- A **Participatory Planning Approach** to Explore & Solve the Existing Social & Physical Problems of Chayghoria, Batiaghata, Khulna
- **Landscape Planning Proposal** for A Heritage Site: Sixty Domed Mosque, Bagerhat
- **Analyzing Pattern & Hotspot Cluster (Local Moran's I)** to test Location Theories in Dhaka Division
- **Utilization of GIS Network Analysis and AHP** to select the optimum link route from Barishal to Padma Bridge

Professional Experience

Assistant Urban Planner **Timeframe:** 07/01/2024 - Current
Sheltech Consultants (Pvt.) Ltd. - Dhaka, Bangladesh
Responsibilities:

- **Upazila Town (Non-Municipal) Master Plan Preparation and Basic Infrastructure Development Project (UTMIDP)**
  - Performing environmental suitability and ecological impact assessments of proposed development plans.
  - Applying tools such as Kobo Toolbox, Excel, and GIS software for data collection, analysis, and visualization in planning studies.
- **Improving Urban Governance and Infrastructure Project (IUGIP**)
  - Enhancing decision-making accuracy by utilizing R and ArcGIS Pro to analyze urban trends and visualize spatial implications for upcoming developments.
  - Synthesizing local community feedback through multi-faceted workshops, ensuring bottom-up perspectives informed regional planning approaches.

Junior Development Consultant (Part-Time) **Timeframe:** 02/08/2026 - Current
Orbix Consultancy (Pvt.) Ltd. - Dhaka, Bangladesh
Responsibilities:

- Identifying, and initiating contact with potential partners, govt stakeholders to expand market reach.
- Assisting development of research-based project proposal.

Internee **Timeframe:** 04/01/23 - 04/30/2023
Centre For Environmental & Geographic Information Services - Dhaka, Bangladesh
Responsibilities:

- Drone Survey Training
- GIS Application in Analyzing Geographic Distributions and Patterns
- Digitizing of Maps

Standardized Tests

IELTS
Overall: **7.5** (Listening: 8.5; Reading: 8.5; Writing: 7.0; Speaking: 6.5)

Software Skills

- ✓ **Python** (Analytical Scripting and Data-Driven Workflows)
- ✓ **R** (Statistical Computing and Quantitative Analysis)
- ✓ **IBM SPSS Statistics** (Survey Analytics, Inferential Analysis, and Data Interpretation)
- ✓ **ArcGIS Pro** (Advanced Spatial Analysis, Geoprocessing, and Cartographic Production)
- ✓ **Google Earth Engine** (Cloud-Based Geospatial Computation and Large-Scale Spatial Data Analysis)
- ✓ **Adobe Illustrator** (High-Quality Technical and Cartographic Visualization)
- ✓ **Microsoft Office** (Professional Research Dissemination and Technical Presentations)

Volunteering Services & Awards

- Member, **Bangladesh Institute of Planners**;
- Joint Secretary, **Alumni Association of KUET Planners**;
- Former Vice President, **URP Association of KUET**; 03/27/2023 - 02/14/2024
- Former General Secretary, **KUET Adventure Club**; 02/14/2023 - 04/22/2024
- Former Campus Coordinator, **Green Voice**; 10/02/2021 - 01/09/2023
